

## MULTI CLEANER

### MODEL -NOVA

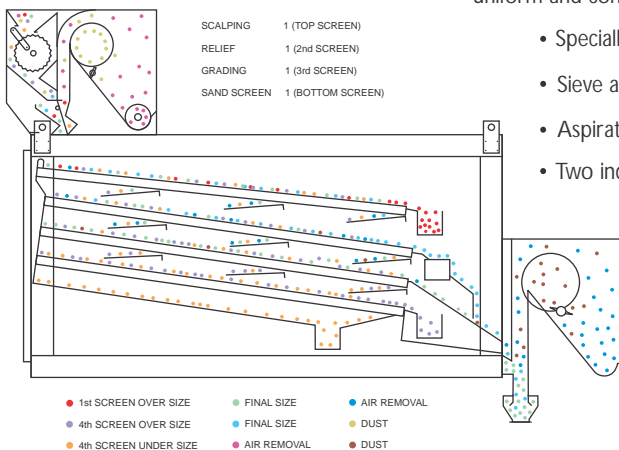

This machine is suitable for efficient cleaning and grading of all cereal grains, pulses, malting barley, coffee seed and seed of all crops such as wheat, paddy, barely, maize, millets, sunflower, soyabean, oil seeds and also for rice & pulse milling

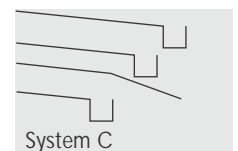

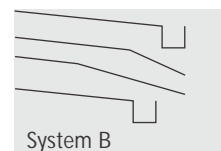

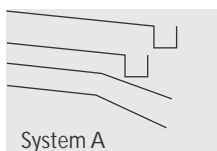

#### Features

- All steel construction frame of steel rectangular pipe in one section welded structure
- Feeding hopper is provided with a feed control gate to regulate the feeding rate and feed roller for uniform and continuous feeding on the entire width of the screen.
- Specially designed rubber balls are provided check the clogging of the perforation of screens
- Sieve are interchangeable type
- Aspirator fans are dynamically balanced
- Two independent fans with aspirator chambers are provided for very precise air separation

#### Optional Sub-assemblies & Parts

Dust Collector, Air Trunk, Surge Bin, Feeding Elevator

TECHNICAL SPECIFICATIONS												
Model	Capacity TPH (Based on wheat)		No. of Screen	No. of Scalping	No. of Grading	Oscillation Speed of Sieve Deck	Size of each Screen Section CM (WxL)	Screen Inclination	Total Screen Area	Screen Perforation Cleaning Device	No. of Aspiration	Electric Motor
	Pre-cleaning	Fine-cleaning
